BEST OF SHOW

Appendix A for Drug testing/Unethical Fitting

Purpose:

To foster fair competition, to provide a level playing field, to protect the safety of food, and the integrity of Crosby Fair and Rodeo, CF&R strictly Prohibits the showing of unethically fitted livestock, livestock of any ineligible age for exhibition, and/or animals being administered unapproved drugs. Additionally, any animal that has been administered a drug that is not FDA approved for its species is subject to disqualification if that animal tests positive for that drug upon arrival at CF&R grounds. All animals must remain free and clear of all drug and chemical residues while on show grounds.

Non-adherence to Rules: Any person found guilty of misrepresentation or not abiding by the Show rules will be disqualified and denied the privilege of showing Crosby Fair and Rodeo.

Approved Drug Use: If an animal has been administered a drug that is FDA approved for its species and class, sufficient time must have passed so that the animal does not test positive for that drug upon arrival at Crosby Fair and Rodeo (CF&R). Animals must remain free and clear of all drug and chemical residues while on show grounds. See Note H for elimination time.

Animal Inspection: As a condition for participation in the Show an exhibitor must agree to submit any animal entered by the exhibitor for inspection. Exhibitor agrees to have such animal submitted to any tests requested by the Show. Exhibitor also agrees that the opinion reached by the Show or its officials as to whether such animal is unethically fitted shall be final and binding without recourse against the Show or any of its officers. Further, the Show specifically reserves the right to have tissue, blood, urine, hair, feather, and/or fecal laboratory analysis made on any animal entered for competition. The conclusions reached by the laboratory shall be final and binding without recourse against the Show or any of its officers. An exhibitor of an animal that is found to be unethically fitted, and/or testing positive for any drug or medication or unapproved chemical may forfeit all rights and privileges to exhibit livestock in the future at the Show.

Emergency Treatment: If an animal requires emergency treatment while on Show grounds, only a

licensed veterinarian will be allowed to administer any drug, chemical or feed additive. An exhibitor may choose a licensed veterinarian other than the official Show veterinarian, but the official Show veterinarian MUST be notified in advance, and he/she MUST be present. Animals which are administered treatments with a withdrawal or extended elimination time period will be disqualified from competition. Furthermore, The Official Show Veterinarian, in agreement with Show Management, reserve the right to treat any animal if, in the opinion of the Official Show Veterinarian, it is in the best interest of the animal's health and well-being to be treated. If the Official Show Veterinarian administers treatment to an animal, and therefore uses any medication that does not meet the appropriate withdrawal and or elimination time, will be determined ineligible for competition.

Treatment Cost: All treatment costs are the responsibility of the exhibitor.

Wholesome Meat Act: The USDA Wholesome Meat Act applies to all market livestock. Only animals eligible for immediate slaughter may be brought onto the grounds and exhibited:

Animals must be in good health and carcasses free of drug or chemical residues.

Drug labels must be observed. Please note that elimination time (the time it takes for no drug residue to be found in the system) is generally longer than the labeled withdrawal time for most approved drugs.

If drug or chemical residues are found in tissue of carcasses, the entire carcass may be condemned.

The Crosby Fair and Rodeo will in no way be liable or responsible for the condition of carcasses or the sale price of the animal. In such cases, the exhibitor forfeits all rights to any and all proceeds including. Auction Price, Premium Awards, and Special Awards.

Federal Food, Drug and Cosmetic Act: As required, in 21 CFR 589.2000, entry in the Junior Market steer, lamb and goat shows, and the Junior Commercial Steer competition shall serve as verification by the exhibitor that, to the best of their knowledge, while under their ownership, possession or direct control, the animal(s) were not fed any feed containing ruminant-derived meat or bone meal. Entrants agree to allow packer inspections of feed ingredient records

and facilities.

Disqualification/Condemnation of Animal: "The Show practices a Zero Tolerance policy on all residue violations." The Show reserves the right to condemn and/or disqualify any animal, either live or slaughtered, found in violation the Junior Show Rules and Regulations listed in the handbook and the exhibitor will forfeit all auction sale and/or premium money if the animal is disqualified. If an animal(s) is disqualified, the class placing will not change. A disqualified exhibitor may forfeit all rights and privileges to exhibit livestock in the future at the Show.

Disclaimer of Warranties: CF&R expressly disclaims any express or implied warranties (including merchantability), whether the goods or services are provided by the CF&R or by others (such as drug testing). The CF&R does NOT provide security or guard services and is not responsible for the acts of third parties. Exhibitor and exhibitor's parents and/or guardians agree that the CF&R shall be entitled to disqualify any exhibitor whose animal tests positive for any drug even if the exhibitor and the exhibitor's parents or guardians are innocent of any wrongdoing and had no role in the administration of the drug shown by the drug test. Even if the source of the drug is unknown, the CF&R shall be entitled to disqualify the exhibitor. Disqualification results in forfeiture of all prize money and auction proceeds.

Drug Certification Agreement: Will be the entry to Crosby Fair and Rodeo, online or written entry. Exhibitor and parent/guardian certify that the entry has not been administered or that the exhibitor and parent/guardian do not have any knowledge that this entry has received any substance not approved by the Food and Drug Administration (FDA) and/or the United States Department of Agriculture (USDA) for food animals. Furthermore, the exhibitor and parent/guardian certify that this entry is free and clear of ALL drug and chemical residue withdrawal and elimination time periods.

Drug Testing: During the collection of blood, feather, fecal, hair and urine samples, the Exhibitor or designated responsible adult must be always present unless a substitute exhibitor is approved by the superintendent. Exhibitors found in violation of this rule are subject to disqualification.

Unethical Fitting: Unethical fitting means any attempt to alter the natural appearance, conformation, musculature, or weight of an animal by any unnatural means. Animals showing any signs of being unethically fitted will be disqualified. Examples of unethical fitting include, but are not limited to the following:

- application of any substance to any part of the animal's body, unless specifically allowed in the department rules of that species; injection, drenching or application of any substance per rectum is prohibited.
- use of injections
- draining of fluids
- bruising
- feeding of material not conducive to the health of the animal, safety of food or marketability of its carcass
- surgical alterations
- **artificially filling animals by airing injections**
